LOCAL DEVELOPER CELEBRATES SUCCESS OF SCHEME IN MOBBERLEY

Those looking for escape from the hubbub of city life and a taste of country living need look no further, as sales have opened at Mobberley **Green**.

Situated in the heart of rural Cheshire, and only 20 miles south of Manchester, Mobberley Green is ideal for young, successful homebuyers looking for a lifestyle which has it all.

And sales at the development have already got off to a flying start, as within a week of opening the doors to the stunning new show home, five of the 11 properties have already sold.

Mobberley Court features four apartments and seven houses all finished to the highest specification. The luxury en-suite bathrooms feature Villeroy and Boch sanitary ware and Hansgrohe chrome fittings, with kitchens incorporating Neff stainless steel intergrated appliances.

The show home is one of seven three-bedroom houses and, with interiors from John Lewis, a mix of modern and country styles. There are also four two-bedroom flats in the development.

Altrincham-based property developer, Merepark is behind the venture. Merepark director, Bob Ross comments: "With its beautiful setting, high design finish, and closeness to Manchester, Mobberley Court is perfect for inner city commuters looking for somewhere to settle.

"We are not surprised that sales have gone through the roof as our new show home has clearly whet the appetite of our buyers and shown what Mobberley life has to offer."

Two apartments and three houses are still remaining at the venture on Town Lane and prices for the apartments start at £199,950 and the houses £329,950. For more information, visit the show home or call Stuart Rushton on 01565-757000
